Montreal, May, 13th, 2015

To whom it may concern,

Mr. Anton Svendrovski has been employed at PCG Canada from June 13th 2011 to May 13th 2015 as a Microsoft Business Intelligence Architect.

I would recommend Anton for any BI Architect position; Anton is very skilled in designing BI environments, organizing project plans and being a technical leader. Anton also showed a high level of competency in SQL development and design.

Anton is the kind of person who can efficiently intervene in the design and development aspect of a BI project as well as the post production phase with monitoring and troubleshooting.

Feel free to call me directly if you wish to discuss.

Yazid Grim

Business Intelligence Manager
